Summary

- Creative and dedicated frontend developer with a passion for crafting engaging and user-centric web experiences.
- With a solid foundation in HTML, CSS, and JavaScript, coupled with my knowledge of modern frameworks like React and Next.js, I thrive on bringing dynamic and responsive web applications that delight users' designs to life through clean and efficient code.
- My proactive approach to problem-solving, coupled with strong attention to detail, enables me to deliver high-quality solutions that meet both client requirements and industry standards.
- As a collaborative team player, I excel in fast-paced environments where innovation and continuous learning are valued.
- Committed to staying updated with emerging technologies and best practices, I am eager to contribute my skills and enthusiasm to projects that push boundaries and drive meaningful impact.

Skills

HTML
CSS - Tailwindcss, Styled-
Component, Bootstrap
JavaScript- Reactjs, Nextjs
Accessibility

Version Control- Git/Github
Package Managers- npm/yarn
SEO (Search Engine Optimization)
Communication and Collaboration
Problem solving

Redux
Rest APIs
Jest
Cross-Browser Compatibility
Self-driven

Work Experience

Frontend developer

Nov 2023 - Present

FeedXPay

- Led the development and maintenance efforts of the website for FeedXPay, a fintech startup, ensuring alignment with industry standards and organizational objectives.
- Independently managed all facets of frontend development utilizing React.js framework, to craft a dynamic and intuitive website interface.
- Implemented backend integration by making requests to endpoints, enabling seamless data transfer and interaction between the frontend and backend systems.
- Proactively identified and resolved issues, ensuring optimal performance and functionality of the website.
- Collaborated with a developer to enhance the dashboard interface, leveraging React.js components and libraries to implement necessary fixes and improvements, thereby optimizing user workflows and enhancing overall usability.
- Demonstrated strong problem-solving skills and attention to detail in debugging and troubleshooting technical issues, resulting in enhanced website stability and performance.
- Actively contributed to the ongoing enhancement of the website, staying abreast of emerging trends and best practices in React.js development to implement innovative solutions and improve user experience.
- Played a pivotal role in driving the success of FeedXPay by developing a visually appealing and highly functional website that effectively showcased the company's products and services to clients and stakeholders.

Frontend developer

Aug 2023 - Oct 2023

Axia Africa

- Collaborated with a senior developer in the creation of a Vue.js bootcamp website enriched with TypeScript, aimed at providing aspiring developers with a comprehensive platform to explore and enroll in immersive bootcamp experiences.

- Focused primarily on crafting responsive designs to ensure seamless user experiences across various devices, emphasizing the importance of accessibility and usability in catering to diverse user needs.
- Meticulously crafted the registration mechanism to gather essential information while maintaining a user-friendly interface, ensuring a smooth and efficient user experience from registration to enrollment.
- Partnered with a cross-functional team to develop a comprehensive study platform for Axia Africa, focusing on creating intuitive user interfaces and seamless user experiences using React.js.
- Worked closely with UX/UI designers to translate design mockups into functional frontend components, emphasizing responsive design principles to ensure optimal performance across various devices.
- Played a key role in crafting the student dashboard, ensuring easy access to learning materials, progress tracking, and interactive features to enhance student engagement and learning outcomes.
- Implemented dynamic features and interactive elements using React.js, enhancing the overall functionality and usability of both the student and admin dashboards.
- Implemented a comprehensive testing strategy, including unit testing and integration testing, to ensure the reliability and quality of frontend code. Introduced automated testing tools and frameworks such as Jest and React Testing Library, resulting in faster feedback loops and improved test coverage.

Frontend developer

October 2022 – December 2022 HNG

Internship

- Finished the program as one of the top 100 Frontend developers, out of over 700 participants.
- Developed user interfaces with modern JavaScript framework (Reactjs), HTML5, and CSS3.
- Built a responsive Metaverse Website showcasing various houses.
- Proved success in working within tight deadlines and fast-paced environments.
- Architected and implemented RESTful APIs to dynamically fetch and display real-time user data, enhancing application responsiveness and personalization; reduced load time by 40% and boosted user engagement by 25%.
- Worked with team members and Product Managers to achieve target results, developing a Reputational Management Website responsible for handling bad reviews.
- Utilized Git and GitHub for version control and collaborative code management.

Education

B.S.C in Biochemistry

ODUDUWA UNIVERSITY, IPETUMODUN, Osun state - Ife

2017 - Aug 2020
